

# WHO WE ARE

FC St Helens Women is built on a foundation of passion for football, commitment, and a strong sense of community. Over the years, we have created a culture of togetherness and support- values that are evident on and off the pitch.

This season is shaping up to be our most exciting yet. After four solid seasons, we're aiming higher than ever. We're incredibly lucky to be part of such an amazing club, one that believes in us and is pushing for us to become one of the best teams in the region. With the support and backing of the staff at FC St Helens, we're heading into the league and cup competitions full of ambition, ready to give our all. After having come so close last season, we're more motivated than ever to go all the way and win the league.

We also head into our fifth season more determined than ever to bring the local community along with us on the journey. The backing of our supporters has been invaluable in recent seasons, whether it's helping out behind the scenes with kit, or cheering us on from the sidelines; every bit of support has made a difference. It was brilliant to see so many people coming along last season to cheer us on- especially the young aspiring footballers! This season, we're hoping to see even more of you at the SMS Pro Soccer Park, cheering us on every step of the way.

Most of all, what matters to us as a team is our love for football, the togetherness we thrive on, and making a positive difference in St Helens.
